THE CONCERT.—This evening an entertainment will take place, that from its merit will be well worthy of the cause to which the proceeds are intended to advance. The performance will commence with selections from Norma, rendered by Mesers. Manning and Levin on the vioin and piano. We can assure our readis and piano. We can assure our readers that this piece will put them in a good humor. The delightful and never cleving airs of Bellini will be readered with a fire and power that the audience will at once acknowledge. After this the favorite Porter song will be song by Mr. Wyatt. This will be succeeded by the efforts of Mesdames Rives, Goldthwaite, Eastland, Halpin, and several gentleman, and we can assure the public, that judging from the rebearsals, they will be giad to have had the opportunity of hearing so great a treat. We know the half will be juit, but we would ask all to come early, and by that means show that the efforts of the kindhearted ladies and gentlemen who have consent.

made the error, for after being dumped out of that buggy, we kept seeing fireworks all night. However, by the aid of the Secretary of the Jockey Club we have got this through our wool: That J. R. Wilson, J. B. Van Hagan and W. H. H. nderson were indges of the races; W. W. Bishop and M. D. Halpin, were distance judges, and the timers were Press Wan) and N. Wescoatt. We do not wonder that we got things mixed, for our imported whisky gave out and the native article is rough, what, with that and the upset, we were slightly wand-ring, especially when a conjured up vision of that bill for the defunct buggy. The anticipations are bad enough, but what in Heaven's name will be the reality.

Racing.-The boys were not satisfied with one day's racing, but had another yesterday, in which several scrub races, and some that were not scrub, were run.
Some money changed hands, but not a great deal. Hanley's gray mare cametout ahead until she was tired out, and then, like the rest of us, she had to sucsumb. The Bulliouville horse appeared not to be a spacess.

Nor Lars.-Some folks go late to church or a concert and illustured people say they do so to attract attention. We do not believe that, but if the audience will be on hand early this evening, they will get sented more comfortably and show greater respect to the occasion and those who so kindly consent to contribute to their amusement.

COMET SALOON .- Last evening Clancy and Mahoney were busy receiving goods for their new saloon.

THERE was a time in the history of this State when Charley De Long might have created an enthusiasm in the breasts of the people that would have swept farcuch the State like a whirlwind and in spite of rings, monopolies or mon-y-triamphantly seated himself in the Senate of the United States. But he left the golden opportunity pass; he sold his burthright for a mess of pottege in the shape of the Japanese mission; and now, among all the friends who were wont to sing nosannas to his name there is left but a corrected entail to shout his but nosannas to his name there is left but a curporat's guard to shout his praise and fight his battles. He comes among us now fresh from his Japanese experience, asking our suffrages to the highest office at this time within our gift, with no property interests in the State worthy of mention, with a simply con-structive residence, and no qualifications are an assumed popularity a presumed save an assumed popularity, a presumed honesty and ability, and a known abounding quantity of cherk. Surely he can cut but a poor figure in the com-

he can cut but a poor figure in the coming fight.

Now comes the proposition: The people of Newada have three men to choosefrom: Williams, the iciels and Jeff-raian Democrat who wants to give \$100,000 for his election; Sharon, the capitalist and mine-owner who will spend
money for the position without quibbling
and DeLong, a gassy and ambitious adventurer. The people must choose from
these three; and it seems now as if they
must choose the lesser evil, which is
Sharon.

must choose the lesser evil, which is Sharon.

While there are many men in our midst who could and would fill the position of Senator with more honor to themselves and the State than would Sharon, and while we do not advocate the election of that gentleman, we cannot shut our eyes to the fact that the election of a better man—in the present state of Nevada politica—is impracticable, and that if Sharon lives he will be the successor of Hon. Wm. Stewart. There is no use in preaching about the corruption of the times; it is a useless task to attempt to right these evils. All such attempts only amount to jumping out of the frying and to fall into the fire; and the whole amount of it is that "Sharon is running for Senator from Nevada." and he is going to be elected.—[Austin Reveille. We always thought that Casamayou We always thought that Casamayou

She arrived here about three weeks ago, and stated that she came from Dutch Fiat, in California. She was arrested by officer Marrow this morning and lodged in the "ity Jail, until her case can be inquired into, and in the meantime she furnishes the other inmates with aumsement, her some and pantomines and dances.—[Virginia Chronicle, 3d.

FROM Tybo we learn that quite an excitement pervades that community over the favorable reports concerning the recently discovered mines in Jefferson district, situated thirty miles northwest of that place. All the men not engaged at steady work have left, or are preparing to leave for the new discoveries. The mines are situated in Jefferson Canyon, and thus far the prospects are most encouraging. Two mills are in course of erection, one of which is nearly completed; and soon the cheerful music of the stamps will resound throughout the canyon. The armyals to the new camp are numerous, and embrace all the well known characters that are always seen flocking to a new excitement, and who are always confident that a fortune is awaiting them.—[Eureka Sentinel, 6.

The prisoner who was shot at the State Prison, is the man Duke who was pardoned some time since, but found his way back to his old quarters. It is a rule of the Prison that no prisoner shall enter the guard-room after o-rain hours, or shall not enter then without knocking. Duke had disr-gard-d this rule once or twice, and was warned the n-zu time he did it he would be abot. Heedless of this warning, he came into the guard-room day before yesterday, as independent as Cuffee, and the first thing he knew, McMailen, one of the guards, winged him. The shot is a harmless one—just grazed his arm—but it will doubtless be a full and sufficient warning to Duke and his fellow prisoners that they must observe the rules.—[Carson Appeal, 3d.

THE Pioche Minstrel Troupe, with the view of all-visting the distress of the sufferers by the late estamity at this place, intended to give a ben-fit perform-ance at that place on Monday night for the Eur-ka Relief Fund. Since then show that the efforts of the kindhearted lates and gentlemen who have consented to afford the benefit of their talents, are thoroughly appreciated. Those who love music will surely be ent-rained, so they had better be on hand early.

JUDOKS.—In our report of the races that took place on Thursday we got things a little mixed in the matter of the judges. We do not wonder that we will serior, for after being dumped

For 24 hours the jury stood eleven for murder in the first degree, and finally compromised with a verdict in the second degree, requesting the Judge to inflict the extreme penalty of the law for that crime. Sentence will be pronounced on Saturday.—[Eureka Sentine], 6.

The town of J-fferson is becoming a place of considerable note. Strangers are bieing thither in considerable numbers, and many new buildings are in course of construction. Mesers. Dayton & Co. are erecting a store. The arrival of sixteen mule teams from Wadsworth, with lumber, is of almost daily occurrence. The mines are said to be improving steadily as depth is attained. Mesars. Slusher & Hanchett are arranging for the building of a saw mill in Sammit Canyon, 15 miles from J-ff-rson Canyon, in the Toiyabe range of mountains.—

Grant for fruit at one of our markets y-sterday, attracted our attention by his hearty largh. The salesman, who does not speak English very plainly, was endeavoring to explain something to Mr. Lo in Indian talk. The Indian listened for some time, and burst out into a langh, saying, "D—n fool you; why the h—l dou't you learn to speak English?" and then went off to seek a brother American to trade with.—[Carson Tribaue, 34].
